ROLE SPECIFIC GUIDELINES:

Let's look at what to expect in various roles/size companies:

- Soloprenuer/freelancer/employee in a company doing the workbox alone:
 - Get all you work out of your head and divided by color
 - Be able to grab a slash pocket when an idea or meeting comes up
 - Have your work accessible even when a computer is not
 - Process and prioritize work for the next week
- Leader of a small team (3-5 people)
 - Identify pink vs. purple work
 - Pink = You
 - Purple = Team
 - Manage 3-5 purple company goals
 - Develop a meeting cadence (once per week)

TIMELINE FOR TRANSFORMATION:

The Friday Workbox® will move your work from piles on a desk to a productive box with a plan! At Organize 365®, we plan our work goals for the quarter.

- The Friday Workbox® is a tool to move your work from reaction to productivity.
- From responding to planning.
- From out of control to in the driver seat.

The Friday Workbox® can take a full year for the true transformation. As Bill Gates said, “We overestimate what we can do in one year in business and underestimate what we can do in 10.” The Friday Workbox® will help you declutter quickly but the rest of the transformation will require growing your organizational muscles and habit building.

Once you start to feel less overwhelmed, it is encouraged that you continue to print things for the Friday Workbox® - it may seem archaic but paper is tangible and it will minimize mental overwhelm.

Process The Friday Workbox® can take up to three hours, but after week six it will likely take one to two hours most weeks. It is also a good idea to have a longer session with your Friday Workbox® time every six then go back to your usual thirty to sixty minute sessions. The goal is to get done and know what your most pressing to-dos are for the next seven days. Focus on seven days because life and business changes too fast to project too far.

TIPS FOR SUCCESS:

Here are some things to look out for to ensure you are getting the most out of the Friday Workbox®:

1. Don't try to do it all at once. Organization and habits are built one step at a time. Give yourself the FULL year. If you are frustrated or overwhelmed, take a step back. Then, go back to the program and follow the course videos.
2. Tackle ONE color at a time. It is OK to take a whole quarter to master a color
3. It is a WIN if you are planning your week on Friday each week.
4. During the week, put EVERYTHING in the basket that can wait until Friday (or your designated day).
5. It is okay and normal to have lots of idea slash pockets. FOCUS on 3-5 purple.
6. Audit your Friday Workbox® - don't be afraid to get rid of or relabel slash pockets. This system is designed to help you stay organized, proactive, and productive through your work projects and roles.
7. Join the Friday Workbox® Community Group in Organize 365® App, and attend the Live Friday Workbox® co-working time on Fridays from 3:00-4:30 p.m. ET. Get your questions answered and ask for support or ideas as needed.
8. Use [Task Batching](#) and [Task Stacking](#). Front-load your plan for your week. Get your tasks done early in the week.
