# Make it visible.

**As we approach the close of another year, I want to take a moment to honor you.** The leader of your household, the cornerstone of your family, the multitasker, the caregiver, the friend, the professional, and the dreamer. You wear countless hats, and with every role, you carry an invisible load. These tasks, decisions, and emotional labor sometimes even go unseen by you but they are never unfelt.

**The unwritten. The invisible. The mental load. The overwhelm.**

This is the work that powers our lives. It's the unseen effort that keeps everything running, often at the cost of our own peace of mind or goals. **But what if this invisible work didn't have to stay invisible? What if you could bring it to light, streamline it, and reclaim the energy it takes?**

**Here's the truth: the mental load you carry doesn't have to weigh you down.** By recognizing it and implementing systems, habits and tools that support your life, you can create space in both your calendar and your mind. When the invisible work becomes visible, it becomes manageable. And when it's manageable, you're free to focus on what truly matters: your goals, your passions, your unique gifts, and your transformation.

As we head into 2025, I want you to dream boldly. **What would it look like to start the year with a clear mind and a focused heart? What if this was the year you stepped into the version of yourself you've always known you could be?** Whether your goals are personal, professional, or somewhere in between, the path to achieving them starts now.

**This catalog isn't about products, courses, or supplies. It's about empowerment.** Every single thing in here is designed to help you identify, streamline, and transform the invisible work in your life, creating systems to support you in freeing up your time to share your own unique gifts with those around you. By equipping yourself with the right resources, you're not just preparing for a new year - you're laying the foundation for a year of extraordinary growth and transformation.

**As you flip through these pages, I encourage you to think about what you need to set yourself up for success.** What systems could lighten your load? What tools could save you time or motivate you to do more of the things you want or need to be doing? What new skills could take you closer to your dreams?

**The path to your transformation doesn't begin on January 1. It begins today.** By taking action now, you can step into 2025 already in motion, already making progress, and with a plan. Not to mention you'll save money by stocking up now.

**Let this be the year you free your mind, lighten your load, and make your goals a reality.** Together, let's make the invisible work visible so you can focus on what truly matters - your happiness, your success, and your transformation.

**Here's to a year of clarity, focus, and purpose!**

★★★★★ **I would pay double**

"Lisa, Thank you for a wonderful planning day!...I would pay double to have spent my Saturday morning with you...I feel so very supported by you and this program, I feel like you are always thinking of us out here and thinking of ways to offer more value in this program. It is worth every penny. You are a treasure and I'm SO happy to have found you when I did." — Anonymous

★★★★★ **We have a plan and are going to work the plan**

"Learned so much from Planning Day on Saturday and implemented a few little things of prepping my week. This morning I got up early to work, had a family meeting with my kids (grade 5&3) about the day, and gave them each an index card with the three things they had to do for school today...Feeling good about my week, tired for the continued lock down but we have a plan and are going to work the plan!" — Lori

★★★★★ I've put my dreams on hold for a while.

"When I was a new mom, I didn't give up on my dreams, I just thought I'd get to them in a couple years. A couple years has turned into 18 years. It's time I start laying the groundwork. I have to start now so that in the next two or three years I have that next chapter. My biggest takeaway was to love the life I have now but start dreaming and planning about my future and future self."

★★★★★ I never thought about dreams for me.

"Went to college, got a great job, got married, had a baby and I was like "is this it?" What should I do? I never thought about dreams for me. Embrace allowed me to think about those things and have things that I'm thinking about that will fulfill me and fulfill my life."

# Blink Weeks Task List

**What are "Blink Weeks" you ask?** The closer you get to the December holidays, the faster time goes (metaphorically speaking). The two weeks before the holiday will go by so incredibly fast - then suddenly it's the holiday and year end in a BLINK! This task list are my proven steps to prioritize those fine details of what needs to get done during the Blink Weeks of December.

DEADLINE	TASKS	NOTES
	<p><b>Online Orders</b> Anything that needs to be ordered should be ordered this week to allow for shipping (clear your list: baking supplies, hostess gifts, items needed for hosting. Refer to Sanity Savers in the Holiday Blitz Planning Pages).</p>	
	<p><b>Pre-Holiday Declutter</b> If you have children, this is the weekend that they should declutter and get their rooms cleaned.</p>	
	<p><b>Meals</b> Plan your meals for December 18- 25. This will allow you to effectively complete the next step of getting all your shopping done (including as many of the groceries as possible).</p>	
	<p><b>Miscellaneous Shopping/Errands</b> Finish shopping by the end of this week (avoid Dec 22 &amp; after if possible!) - everything that needs to be purchased that is not perishable should be purchased by the end of this week.</p>	
	<p><b>Gifts</b> Make sure you have purchased gifts for every single person on your list. Ideally, you do not want to be trying to shop from the 22nd on.</p>
